TO WHOM IT MAY CONCERN

I have dealt with Rigid Steel Framing Pty Ltd since 2006 as their engineering consultant. As an organisation I have found them very professional in the standard of product they produce. Their employees are conscientious and apply a high level of attention to detail to their work

Rigid Steel staff and management are available in person to assist with any queries and are pleasant and courteous to deal with.

I can confidently recommend Rigid Steel Framing as a solid and reliable supplier, and experts in their field of steel frame manufacture and installation.

Yours faithfully,

Greg Anderson FIEAust CPEng RPEQ
Director
